AVYVE is Awarded GSA Contracts for IT and AV

Atlanta, GA – February 18, 2006 – AVYVE, a leading audio visual systems integration company headquartered in Atlanta, Georgia, announced today that they have been awarded both the Schedule 71 and 58 GSA Contracts for IT and AV products and services.

“We have been doing sophisticated projects for the military over the past several years and it made sense for us to get these contracts,” says Merry McCleary, President & CEO of AVYVE. “We are committed to providing quality design services as well as equipment procurement and implementation services for our Federal Government clients.”

AVYVE has designed and installed many important video conferencing and command control systems for federal government clients including the United States Army, Lockheed Martin and the Centers for Disease Control. “It is imperative that the systems designed and implemented in these mission critical environments are reliable and intuitive. They must enhance, not disrupt these communications,” comments Fred Mitchell, Vice President of the Federal Systems Group of AVYVE.

AVYVE specializes in the design development of integrated audio visual systems including briefing rooms, training centers, audio and video conferencing applications, as well as command control and network operation centers. Additionally, AVYVE provides on-site maintenance, as well as remote monitoring and diagnostic capabilities.

About AVYVE:

Established in 1998, AVYVE is a nationally recognized audio visual system integrator headquartered in Atlanta, Georgia. A team of industry veterans specialize in the integration of a wide range of visual communication solutions for their corporate, medical and higher educational clients, as well as the homes of their leaders. AVYVE's strict focus is on the design, implementation, training and maintenance of their clients' systems. Areas of expertise include boardrooms, training facilities, media rooms, videoconference centers and command control environments commercially. Residentially AVYVE provides whole home automated technologies encompassing audio distribution, lighting control, phone systems, as well as home theaters, networking solutions and video surveillance.
